

## WiCS-2100

Our new Wireless Interactive Collaboration System is designed for corporate and classroom applications. WiCS-2100 offers full integration with Chromecast and AirPlay, dynamic screen layout, eco standby mode and on screen user preview of connected device content for better moderator control.

## **Top features**

**On Screen User Preview** Displays thumbnails of all connected devices for immediate preview

See wepresentwifi.com for complete features list

**Dynamic Screen Layout** 

When multiple users are presenting, content layout configures automatically to optimize display.

## **AirPlay Support**

Share audio/ video content from an iOS device, using Apple's native AirPlay protocol.

Eco Standby Mode Utilize discreet power to maintain functionality while conserving energy use.

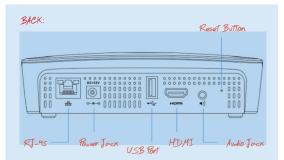

## **Chromecast Support**

Share audio/ video content from a Chromebook or Android device, using Google's native Chromecast protocol.
